ITEM 2

Military Use of Space

Means of approaching the problem of determining Soviet requirements and possible programs in this field were discussed. It was decided that as a first step Lt. Col. Carey, Col. McFarland and Col. Fox would check to see if the Air Force Systems Command will present a two or three day series of briefings on potential military space systems to GMAIC in the early Fall of 1961. Extra-GMAIC interest is expected and attendance of 50 or 60 or more persons is anticipated.
